

# CELTIC PRIDE

MANUFACTURING LTD.

## CP-48K-OF

- ▲ Weight 4,400 lbs
- ▲ Max pull 48,000 lbs
- ▲ 46 1/2" Long ball bearing style skate
- ▲ 38" length of skate contact area per side
- ▲ Re-circulating ball skates,
- ▲ 150 contact points per side
- ▲ 120-4 Diamond chain and machined steel dies
- ▲ Two 4 row pancake cylinders each with 1.5" stroke
- ▲ Skate cylinders with internal hydraulic porting
- ▲ 1 quart accumulator bottle tied in to each cylinder block.
- ▲ 3000 psi skate pressure, max compression force of 200,000 lbs
- ▲ Max. force per ball bearing 666 lbs
- ▲ Max. force per steel die 4000 lbs
- ▲ Fourteen tooth sprockets with sealed bearings
- ▲ Hydraulic independent main chain tension
- ▲ Multi-bank hydraulic quick connects
- ▲ Electro Sensor electronic counter and magnetic pick-up
- ▲ Swivel arch head mounted to the injector
