

MODEL CPI-40K INJECTOR

CELTIC PRIDE
MANUFACTURING LTD.
ALBERTA CANADA

Dimensions

Base length - 43.5"

Base width - 16.5"

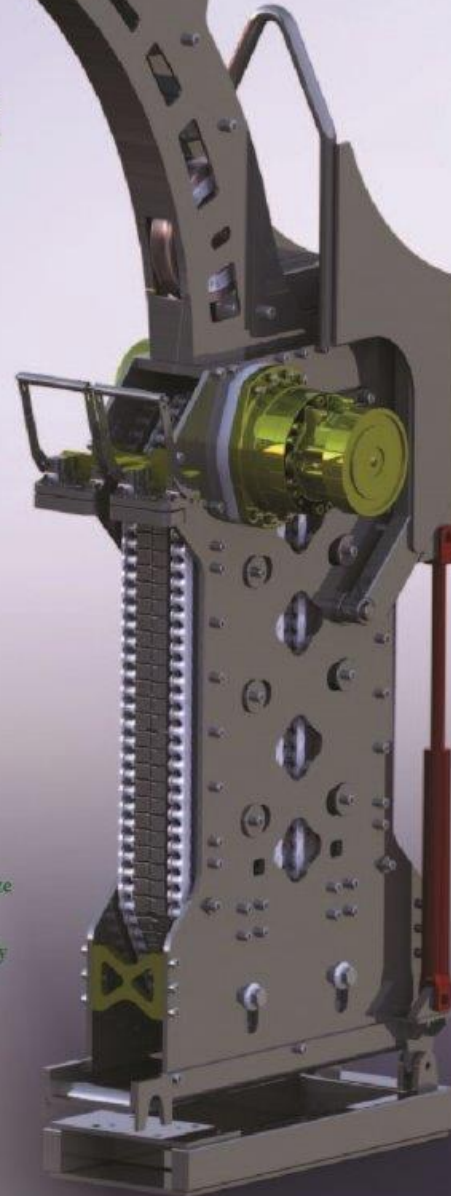

Motor width - 36"

Height - 74.5"

Weight - 4,160lbs

Specifications

- ▲ Celtic Pride patented Re-circulating Skate system
- ▲ Celtic Pride patent pending Skate cylinders
- ▲ Skate cylinders apply force directly to the back of the die
- ▲ Each Skate cylinder has internal machined porting between pistons
- ▲ Skate cylinders are double acting
- ▲ Each Re-circulating ball Skate has 30° of contact area onto the pipe
- ▲ 151,194lbs force @ 3,000psi squeeze
- ▲ Approx. force per tool steel ball 175lbs @ 42,000lbs pull @ 1,200psi squeeze
- ▲ At all times, 240 balls transfer the squeeze force to the tubing
- ▲ Skates do not require constant lubrication, greasing required once weekly
- ▲ Idler cylinders apply force directly to the top of the sprockets
- ▲ Idler sprockets have sealed long-life bearings
- ▲ Dies are 8620 material, CNC machined and hardened
- ▲ Proven history- over 150 models with this chain size manufactured
- ▲ Hydraulic tilt engineered for 20,000lbs
- ▲ Injector Side-plates CNC line bored to within 5 thou. tolerance
